The great city editor, "Doc" Wood, who worked for Charles A. Dana, would have called this "NEWS."

Republicans and Democrats in this campaign will use music to attract "racial groups" and gather in votes. The Republican convention will have choirs of colored people, also German, Italian and Scandinavian, singing at intervals.
Colored singers will remind the nation that "All the world are and dreary, everywhere I roam." The suggestion being, "Why don't you colored people vote against the New Deal, remembering what Abraham Lincoln did for you?"
German, Italian and Scandinavian choruses will sing songs, tactfully selected; the Germans, perhaps, addressing the candidate, will sing, *Die Welt wie sie ist*, very beautiful.

Nobody can put anything over on Postmaster Farley, who will run the Democratic campaign. He will make those Republican "racial" singers "black way up stage," signing up all the really loud brass bands. "I wouldn't hesitate at a symphony orchestra," says he, "unless I found public opinion opposed it, and I'll have more public singers, more choruses than those Republicans ever heard of."

The "Uncle Tom's Cabin" manager, who had three Topicals, two Uncle Toms and fifty bloodhounds, could learn more about the impressive business from Mr. Farley.
It is calculated that enough loud brass bands, racial choruses and symphony orchestras bombarding the ether will make it impossible for anyone to think—ideal for a political campaign.

A person named Luciano, on trial in New York as "lord of the vice ring," had an idea, it is charged, that it was at least profitable.
Observing that vice in New York city was not brought under "proper organized control," he grouped his "mob" of alleged criminals, including assorted disbarred lawyers, and put vice "on a business basis."
As a result, every miserable outcast woman in New York was compelled to pay ten per cent a week of her earnings. All this, according to the prosecutor.

It is possible that the Angel Gabriel, who keeps track of such things, will later have the satisfaction of writing in his book, "Luciano, sixty years in prison," while waiting for that person to appear above and hear a real sentence.

Professor Raymond Moily says it was easier for Mussolini to conquer "muddy thinking" in the League of Nations than it will be to "prevail over the mud of Ethiopia in months to come."
Also, Professor Moily, observing that Mussolini intends to keep 400,000 soldiers in Ethiopia, wonders how he will ship 400,000 Italian women out to join them. Conscripting women would be new, assuming there would be expensive.

Mussolini seems to have had his plans made from start to finish, and 400,000 Italian women would make a trip to Ethiopia knowing that they and the 400,000 soldiers would lay the foundation of future civilization in Africa.

Ancient Rome did it in Gaul, England and other primitive lands; modern Rome will do it in Ethiopia.

Publicly, with dignity, Mussolini withdraws from Geneva and the League, perhaps never to go back.

Privately, his representatives are said to have suggested to the League: "You have a seat here for Haile Selassie, the runaway Ethiopian Arab, now hiding in Jerusalem. Why don't you put an arm chair on either side of his seat for the Queen of Sheba and King Solomon, from whom he thinks he descended?"

While Dr. Eckener, in the sky, was trying to break the record on a 3000-mile flight from New York, N. J., to Frankfurt, Germany, Mrs. Dibble, of Massachusetts, was breaking the four-in-hand coach record between New York and Atlantic City, 113 miles. Using several teams of horses, she made the trip in 4 hours, 44 minutes and three seconds, police clearing the way. A small automobile could have made the same trip about half an hour and a half, a really fast plane could have done it in twenty minutes. The lesson will soon be "a museum piece, as regards fast transportation."

Herbert Hoover, former President, saw on Tuesday the Third International Stamp Exhibition at the Grand Central Palace in New York, opened by President

GODDARD DIVORCED BY COLLEEN BRIDE

MRS. EILEEN CATHERINE BAYLEY GODDARD

Wins Divorce in Dedham

BROOKLINE SOCIALITE-IRISH ROMANCE NOW ENDED

Mrs. Eileen Catherine Bayley Goddard, an Irish colleen who was wooed and won less than three years ago by Amory Goddard, Brookline social regitriste and famed archaeologist, won a divorce in Dedham probate court today.

Goddard was cruel and critical after the honeymoon, she told Judge Joseph R. McCone. He slapped her and reprimanded her in the presence of friends, she testified.

Once, Mrs. Goddard declared, he became incensed with her white collared dog and tossed it down a flight of stairs.
When she protested, he threatened to throw her down after the dog, she said, and he seized her by the arm so hard that she bore black and blue marks afterwards.
Goddard, once connected with the Harvard Penobscot Museum, was divorced in 1932 by Mrs. Evelyn

CITY BUDGET FALSE, SAYS FIN. COM.

Predicting a tax rate of \$42, the Finance Commission today charged Mayor Mansfield with misleading the public with false budget decreases and juggling of figures.

The commission, which made its criticism in a letter to the City Council, also asserted that the 1936 budget was being rushed through with undue secrecy.

The City Council was requested to withhold final passage of the budget, voting only partial appropriations until all interested city and real estate organizations have a chance to study the figures.

The commission wrote that the mayor's budget falsely indicated a reduction in welfare and cemetery expenditures.

Hiring of more constables was also criticized.

The letter to the city council states, in part:

"The budget commissioner, pre-

U. S. Urged to Put Dirigible in Air

Washington, May 14 (AP)—The House today adopted a resolution requesting the director of naval operations to restore the dirigible Los Angeles to a flying status in active commission.

Allied chemical and J. I. Case each scored 45, Westinghouse more than 44 and Grayhound, Du Pont and Western Union 43 or more points each.

Steele joined the handwagon, U. S. Steel and Bethlehem each climbing more than 22 before morning pro-taking. In the motors, Packard was up a dollar, Chrysler 32 and General Motors more than \$1.

Edward to Have Riviera Vacation

Canons, France, May 14 (AP)—King Edward VIII will vacation on the Riviera this summer, it was understood here today.

He will stay at "Villa le Rion," the Gulf Juan estate of Lord Chotomond.

Traffic Plan Flops

Cambridge police officers were today considering a request of the City Council that the rotary traffic plan on West Harvard square be discontinued.

Woman, WPA Men Hurt in Crash, Dog Saved

William C. Paxton, superintendent of streets in Lexington, saved his automobile today to avoid hitting a dog, but his car skidded, crashed into a truck, and his mother and eight federal relief workers were hurt.

The crash took place at Massachusetts avenue and Pleasant street, East Lexington. The truck, owned by the Works Progress Administration, was on way to a Lexington Center hotel.

The truck was hurt on its side, spilling the occupants in all directions. All live in Somerville and Cambridge.

MOTHER IS INJURED

Mrs. Dora L. Paxton, mother of the street superintendent, was taken to her home for treatment. Superintendent Paxton was the only one to escape injury.

Taken to Symmes Arlington Hospital, she was following relief workers.

DUGGAN, NEIL P., of Parkside street, Somerville, operator of the truck.

LEE, JOHN, of Magazine street, Cambridge.

SULLIVAN, JEREMIAH, of Kenwood street, Cambridge.

All suffered lacerations, contusions and abrasions of a serious nature and are being X-rayed for possible bone fractures.

TREATED BY DOCTOR

Treated by Dr. James J. Walsh of Massachusetts avenue, Lexington, were:

DUNN, WILLIAM, of Glenwood road, Somerville.

HAYES, THOMAS, of Sixth street, Cambridge.

HUNT, EMERSON, of Lake street, Cambridge.

MASSELL, VITO, of Watson street, Cambridge.

STONE, FRANCIS, of Putnam street, Cambridge.

G MAN SHOT TO DEATH BY RUM-RUNNER

Cory, Ind., May 14 (INS)—John R. Foster, a United States revenue agent, was shot and killed by one of two rum runners near St. John, Ind., seven miles out of here, early today.

The rum runners, driving a black coupe at an 80-mile-an-hour pace, opened fire with a rifle and Foster and his associate, Guy C. Goodin, pulled alongside after a chase of several miles.

J. Edgar Hoover, in Washington, at once dispatched St. John G-men to track down the killers at any cost.

One hunter pierced the revenue agent's heart. Two others struck him in the leg.

Goodin said Foster, who was driving, slumped over the wheel, crying:

"They got me!"

SUICIDE AS G-MEN

Goodin halted a passing auto and rushed Foster to a hospital in Hammond, where attendants said he had been killed instantly.

The victim, who was 32 years old and was a native of Superior, Wis., Foster and Goodin had been operating in and near Lake County for several weeks, and had been reported by the underworld as G-men.

Early today the two Federal agents halted at a roadside near St. John, where a man was sitting at the wheel of a black coupe in the driveway.

Goodin was sitting in the passenger seat, and Foster was peering out of the door frequently and apparently nervous.

SHOT THROUGH HEART

When the two Federal men started into their car, Foster was in the roadside, dashed out and leaped into the black coupe which was roaring down the highway.

Foster wheeled the agent's car around and sped off.

At the agency car pulled up to the black coupe, Goodin related one of the men leaped from the car, raised a rifle and fired four shots.

The first two bullets struck the left side of the head of the agent, and the third and fourth struck the left and right sides of the head, and lodged in Foster's chest.

Goodin said, "I saw Foster gasp and slump over the wheel, and I saw him fall out of the car."

Balances and Receipts

Washington, May 14.—Today's Treasury balance, \$12,761,346.14, a custom receipt, \$12,761,346.14.

Lord Allenby, 75, Holy Land War Hero, Dead

London, May 14 (INS)—Major-General Lord Allenby, who commanded the Egyptian expeditionary force in Palestine during the World War, died in his London home today. He was 75 years old.

Lord Allenby's death was most sudden, a member of his household said. "He was in his study about 12:30 o'clock when he collapsed and died almost instantly."

One of the last surviving military figures of the World War, Lord Allenby, distinguished himself in the Palestine campaign when, with the aid of the Arab revolt led by the "Lawrence of Arabia," he defeated the Turks and triumphantly led his troops into Jerusalem.

His campaign in the Holy Land brought him world recognition, and following the war he was honored as high commissioner for Egypt, a post he held from 1919 to 1925.

Allenby was knighted and in 1925 made first viscount of Megiddo, and of Palestine. King George V. bestowed upon him the peerage in recognition of his services.

The son of a Yorkshire family, Allenby was born Edmund Henry Thomas Allenby on April 23, 1861.

Allenby was knighted and in 1925 made first viscount of Megiddo, and of Palestine. King George V. bestowed upon him the peerage in recognition of his services.

"We love our faith in judges, there is no sense in having any government at all," said Dorgan in filing his order.

'No Bill' in Death Of Boy's Grandma

Newburyport, May 14.—The Essex County grand jury today returned "no bill" in the case of the death of John Philip Leckie of North Andover, who allegedly confessed to having murdered his grandmother by gas in 1928.

The youth, now in Danvers State Hospital under observation, was charged with the murder of his grandmother, Margaret Leckie, 65, of Danvers, who died of pneumonia in 1928.

Allenby was knighted and in 1925 made first viscount of Megiddo, and of Palestine. King George V. bestowed upon him the peerage in recognition of his services.

Belgian Balloonist To Try Ocean Hop

Paris, May 14 (AP)—The Belgian aviator N. Demuyter today announced plans for a transatlantic hop in a spherical balloon, starting from a point on the North American coast on an unannounced date.

He said he expected to land in Norway within 80 or 90 hours after the take-off.

Mussolini's Sons Start for Home

Roma, May 14 (AP)—Premier Mussolini's aviator sons, Vittorio and Bruno, who have been promoted to the rank of lieutenants, aboard the Conte Verde, homeward bound, it was announced today.

HOUSE ASKED TO BLOCK OUSTER

Governor Curley's move for Massachusetts judges over 70 years old to face mental and physical tests and possible removal, was characterized today by former Governor Ely as "murder in the first degree."

Meanwhile, Representative Thomas Dorgan of Dorchester, filed in the House an order which would tend to block the Curley move at its outset.

This order is one in which the governor and council would be required to obtain from the Supreme Court, two of whose members are affected by the Curley proposal, a ruling on the legality of Curley's plan.

"If we lose our faith in judges, there is no sense in having any government at all," said Dorgan in filing his order.

ELY SCORES PLAN

"We must proceed in an orderly manner in this important matter. It is impossible to have present-day men of our age, but as a general proposition the Massachusetts courts have been standing."

Former Governor Ely, in his attack on the Curley proposal, accused the governor of attempting to "poison himself," and predicted that Curley will "never dare go through with it."

"One of the things that we were all taught in our youth is that a man should not go through with it," said Dorgan in filing his order.

EUROPEAN COUNCIL FROM AUSTRIAN CAPITAL

Vienna, May 14 (INS)—

Vice-Chancellor Prince Ernst Rüdiger von Starhemberg, exponent of Fascism in Austria, was ousted from the cabinet today and 16,000 members of the Freischiind and Sturmsharen private armies were concentrated in Vienna within a few hours to prevent him from attempting a possible counter-coup.

The ousting of Starhemberg strengthened the position of Chancellor Kurt Schuschnigg, and was regarded as swinging Austrian foreign policy sharply toward collaboration with Britain and France.

Nevertheless, the government made no change in Austrian foreign policy, and that the Austrian government was sticking to the Rome pact. International News Service learned that Starhemberg will go to Rome tonight to inform Dr. Duce of events resulting in his removal from the cabinet. At present Starhemberg is in the Heimeiswehr headquarters here.

Prince's last act as Vice-Chancellor was to release 20 Heimwehr men arrested in their recent demonstration against Schuschnigg. Starhemberg's press chief announced:

"Prince Von Starhemberg is ordering the Heimwehr to maintain order and discipline, and is promising that he will make certain that the government backs the program of the late Chancellor Engelberg. He will devote his energy to the Heimwehr alone."

The present government was seen as more monarchistic than the previous one. It was headed by the new vice-chancellor, Edmund Eisele, who was an old-fashioned leader of the monarchist circle of the Heimwehr.

Prince Ernst Rüdiger von Starhemberg, who recently ousted Eisele, had been in charge of the Heimwehr and had been in charge of the Heimwehr in all the world, was out of the cabinet, was contained in this official communication.

"Prince Ernst Rüdiger von Starhemberg, vice-chancellor, has resigned from the government in consequence of the decision on matters of principle with Chancellor Kurt Schuschnigg."

BACK HOMEWEHR

Although the formal announcement said the prince had resigned, informed quarters told International News Service he had been quietly ousted from the cabinet.

The government statement added:

"After removal of dualism, the leadership of government is now unified but unchanged."

The new government is headed by the Heimwehr, as shown by the fact some Heimwehr members are in the new cabinet.

Eisele of the former Austrian cabinet, who some time ago mentioned for the post of Regent, failed to impress the Viennese, who were anxious of his departure from the cabinet until late this morning.

At noon Starhemberg's whereabouts were unknown, it had been reported he intended to go to Rome, but whether he actually intended to make the trip or when he would go, remained unknown.

Powers Seek to Reform League of Nations

Geneva, May 14 (INS)—With the League Council adjourned until the middle of next month, hectic diplomatic activity began today as big and little powers sought to reach and preserve the agreement of the League of Nations, crumbling under the hammer blows of Premier Mussolini's victory in Ethiopia.

While League circles claimed the League will continue sessions against Italy until the next Council meeting and pointed proudly but anxiously to its refusal to recognize Italy's annexation of Ethiopia, Dr. Duce's government retorted that there is no reason for continuing them, and that in any event the League is powerless to harm Italy.

Maxim Litvinoff, Soviet Foreign Minister, whose attitude toward Mussolini has undergone a sudden, radical change, now wants sanctions.

Valee Joins Judges of Ballads

New York, May 14—Rudy Valee today accepted no invitation to serve as one of the national judges of the Boston Herald-Bulletin competition of the Hearst newspapers.

The committee board of judges, which will be announced in several days, will include some of the most distinguished composers, bandmasters and song writers in the country.

Valee, Miss Irving Berlin, Johnny Green and other outstanding personalities in the music world, believe amateurism stands just as good chances as professionals in capturing some of the regional and national cash prizes to be awarded by the Hearst newspapers in the competition. He said:

"If amateurs don't exert their best efforts in this national song tourney they will be making great mistakes. Some of the best numbers are being made up by amateurs from the pens of amateurs."

"I want to go home if you will be so good as to buy me a ticket."

The usual general immediately arranged passage for Howard, on the Italian liner *Albatross*, sailing for Massachusetts.

to be used. Litvinoff hopes in this way to exert pressure on Britain and prevent the Italian government from firing with Germany.

With Russia's policy greatly influenced by the Soviet government, which will soon take power, it appeared France will not agree to continue sanctions against Italy very long unless Britain makes a clear stand against Germany.

Mussolini Sees Deputies Pass Roman Empire Bill

Rome, May 14 (AP)—The Chamber of Deputies, in the presence of Premier Mussolini and his entire government, today unanimously ratified the bill creating the Roman Empire.

Watching the vote from the diplomatic gallery was Baron Pompeo Aloisi, head of the Italian delegation to the League of Nations, who had just returned from Geneva.

Near him were the ambassadors of Germany and Japan and the minister of Austria.

Mussolini read the decree creating a new empire based on the conquest of Ethiopia without comment.

The deputies voted immediately, signifying their approval with a vote of 400 to 10.

Demobilization of the Italian army continues despite the strain relations with the League of Nations and the continuance of the League association.

Military authorities said the work of the Italian soldiers back in civilian life was proceeding after a brief hesitation following Baron Aloisi's departure from Geneva.

They said, was made possible by the time the League council meets again June 16.

Slaying Victim's Rites in Attleboro

Attleboro, May 14 (The funeral of Mrs. Lillian Gull, who was murdered in her room at the Y. M. C. A. in Chicago last week, will be held in Attleboro next Friday from the home of her sister, Mrs. Joseph Bloom.

Mrs. Gull formerly resided in Chicago and had been in Attleboro for some time. She was unable to solve the murder of the 25-year-old widow.

Wall Perilled

Peking, May 14 (AP)—The Chinese press charged today that the Japanese government is planning to purchase all the land of the Great Wall and regard it as the night-line achievement of human industry, are going into Japanese military barracks.

Because Japanese soldiers are taking the bricks from the wall to build a new barracks at Kuyukou, the reports said, the ancient structure is in danger of being at least partially dismantled.

Unclasped

BY BERTON BRADLEY

SAID Mother Goose, "Oh, what's the use? I must admit defeat. MY nonsense stunts are knockouts, once. But now they can't compete."

"With projects which New Dealers it to put in operation; What THEY contrive shows me that I've Got no imagination!"

Sighed Mother Goose, "I can't cut loose With anything so comic As what is done in Washington By experts economic."

"I never thought my nonsense ought To guide the tolling mimes. Or represent a Plan which meant Expenditure of billions."

"And THAT is where I can't compare With bureaucrats and scholars. Whose nonsense seems beyond my dreams (And simply burns up dollars)!"

"So what's the use?" sighed Mother Goose. "For nonsense, plain and pure. The New Deal kind leaves me behind—A hopeless Amateur!"

Democratic Chiefs Certain on Landon

By JOHN T. LAMBERT

Washington, May 14 (JUL)—The Democratic national strategists today looked over the latest primary election returns from various sections of the country and agreed among themselves that Alf M. Landon and Franklin D. Roosevelt will face each other for President of the United States.

The elections in Ohio and West Virginia and the conventions in Wyoming and Vermont convinced them that the Kansas Governor will be nominated for President by the Republican Party at Cleveland.

Senator Borah's defeat by Robert A. Taft, the "favorite son" candidate, was the surprising Ohio outcome, what aimed possibility had existed that the Idaho statesman might become the presidential nominee.

It is now clear that the influence over the party platform and the selection of the actual nominee.

FEEL LANDON STRENGTH

Ohio's "favorite son" candidate was waded by the victorious 52 Republican delegates on the primary of many states that they will vote for Governor Landon as soon as they meet in Cleveland.

These delegates sensed the strength of Governor Landon and the Republican vote and they were convinced that they would be defeated by the Borah group unless they declared without reservation for Landon.

Returned from West Virginia, where the remarkable high position held by Landon on the sentiment of the state.

Although Senator Borah's name appeared on the ballot and his name on the national campaign manager, former Representative Carl Bachmann, calls from West Virginia, the Republican voters decided to elect a state of unpaid delegates who had publicly proclaimed their allegiance to Governor Landon.

The Washington politicians observed that the eight delegates-at-large elected to Senator Borah were defeated in Ohio and that probably not more than five of the 44 district delegates were elected in his favor.

Senator Borah, while declining to comment on or explain the outcome, said he was disappointed in the statement that the men who control the party and will likely control the national convention have made their final stand in favor of Landon.

He said they have decided the party will give them by understanding they will pass the anti-bullying bill. He said they have failed to bring the colored voters "except for purely corrupt political purposes."

NEGROES RESENTFUL

Borah evidently had reference to the primary election in Cleveland where colored Republicans were said to have voted against him because of his refusal to support the anti-bullying bill on his campaign that it violated state's rights.

President Roosevelt swept Ohio and West Virginia as he had cleaned the other states in which he had been elected. He had received the support of all states in which there had been party conventions.

Colonel Henry Breckinridge re-

Ohio Swing Forecast

Columbus, O., May 14 (JUL)—With Senator William E. Borah winning more than six of Ohio's 33 delegates to the Republican national convention, political observers today regarded as highly probable that Governor Alf Landon of Kansas eventually would have the bulk of the remainder.

Robert A. Taft, Ohio's "favorite son," actually won the 48 or more other delegates, but they were to switch from him to a real candidate after a complimentary vote or two. A majority of them are said to favor the Kansas.

A feature of the G. O. P. primary was the large number of write-ins for Landon. He had been invited to enter the primary, but turned down the offer. In gubernatorial duties would not permit him to campaign in Ohio.

Landon wrote in votes were not counted, but the practice flourished especially in Ohio County seats. Many of the at least 40 convention delegates elected on the Taft slate are pledged to vote for the Kansas after the first ballot.

President Roosevelt defeated Henry Breckinridge, "Constitutional Democrat," 32,000 to 22,000 in incomplete returns.

When state election officials sidetracked counting the Borah-Taft delegates, Landon's victory was caused by the absence of election of all eight Taft candidates. Taft's vote had over 30,000 votes more than higher Borah-Taft large counts.

Another highlight of the primary which saw the reelection of Governor Martin L. Davey, Democratic governor, was the success of congressional candidates endorsed by Father Charles E. Coughlin, Detroit radio prophet. His spokesman claimed nomination of 13 Coughlin endorsed candidates.

Townsend turned out in large numbers in the Eighth District to nominate Grant Rogers, Republican, for Congress. He will oppose Brooks, Father Martin, incumbent Democrat, in November.

Gillis Quits Fight To Oust Fireman

Newburyport, May 14 (AP)—Andrew J. Bonny's "Gillis" Newburyport, his red-headed, mayor, gave up his four months' legal fight today to keep a former fire chief off the payroll.

He announced Attorney-General Dever had ruled John F. Cutler, once fire chief of Newburyport, should be retained and compensated for loss of wages since January 4, when Gillis ousted him. Gillis had defied a court order to retain Cutler, claiming Cutler was a political fireman.

Gillis was fined \$300 in superior court for going to court to stay the order. He had defied a court order to retain Cutler, claiming Cutler was a political fireman.

30 Million Gas Masks for Britons

London, May 14 (AP)—Geoffrey Lloyd, Undersecretary of the Home Office, announced today that the British government plans to produce 30,000,000 gas masks for the use of British civilians against any type of gas in war.

Foiled 'Em

Chicago, May 14 (AP)—Harold A. Sims surrendered his wallet to a police officer, quietly and drove rapidly away with \$100 in cash which he mislaid.

The robbers soon discovered the wallet was empty of the \$100, but the blocks, but Sims escaped.

SOMERVILLE CLUBS

Resolutions strongly urging the 33 delegates and alternates elected from this state to the Republican National Convention to give their unqualified support and vote for Governor Alf M. Landon for the G. O. P. nomination for President of the United States, have been adopted by the Landon for President Club of Somerville. They were sent to the delegation.

The Somerville club is the first of the local Landon units to complete its organization. Former Mayor Charles W. Eldridge is president; Dr. Edith L. Hurd and Richard Ober, vice-presidents; Ernie Hobbs, secretary, and Howard E. Wemyss, treasurer.

Its advisory board consists of Representative Philip Chase, chairman; former Mayor Leon M. Cowell, former Mayor Councilors Eugene A. F. Burnett and William H. Dolan, William J. Bell, Alfred C. Walton, Edith B. Dwyer, John J. Hurley, John P. McGowan, David H. Jones, Joseph C. Glavardis, Marie Sanborn, Horace Whitman, Eugene M. Carman, A. Belmont.

OTHER CITIES ORGANIZE

Its membership includes many independent as well as Republican voters of the city and a number of Democrats are showing interest in the movement.

In many other cities and towns, similar organizations are completing their returns and will adopt resolutions placing their club against the position taken by the United States.

These appeals to the delegates which saw the reelection of Governor Martin L. Davey, Democratic governor, was the success of congressional candidates endorsed by Father Charles E. Coughlin, Detroit radio prophet. His spokesman claimed nomination of 13 Coughlin endorsed candidates.

Townsend turned out in large numbers in the Eighth District to nominate Grant Rogers, Republican, for Congress. He will oppose Brooks, Father Martin, incumbent Democrat, in November.

Ham A LA Golden

as the Zutter serves it

Fill up the Cookie Jar with good OLD-FASHIONED COOKIES!

BY THE MAKERS OF MAKE'S CAKES

Ham A LA Golden

as the Zutter serves it

"I found it delicious and so easy," says Mrs. D. G. Davis 37 Gray Street Newton, Mass.

"Chef Louis De Smet of the Hotel Statler never heard of us," says Mrs. Davis, "but our family felt that we know him ever since I cut from the newspaper his recipe for Broiled Ham Golden. Really—we never tasted such flavor! And the recipe is as simple as ABC. Any woman can get this delicious flavor just spread the ham with Golden's Prepared Mustard. Dip in bread crumbs. Broil or pan broil in a little butter. Be sure you use Golden's."

Just spread the ham with Golden's Prepared Mustard. Dip in bread crumbs. Broil or pan broil in a little butter. Be sure you use Golden's.

DRINKING MILK BIG HABIT WITH THOSE 'KUTE KWINS'

MARIE—A toast, says Marie, is quite—as you say—appropriate for the occasion. For, you must remember, my birthday comes on May 28. Marie must be making a very funny toast, indeed, if we are to judge from the picture. But then, these quints are just full of fun.

EMILIE—Peek-a-hoo! Emilie combines two pleasures by engaging in a little game of peek-a-hoo while drinking the milk that makes her cheeks so chubby. But, look out, Emilie, you might get your cute little nose caught on the edge of the glass.

CECILE—Like Marie, it seems that Cecile is proposing a toast for the coming of their second birthday, May 28, but this is one of a more serious nature. The quins can be serious when they want to, but they usually don't want to.

ANNETTE—Annette proves that it is a very polite little girl by dispensing of her milk drinking to listen to what one of her sisters has to say. Not that Annette could drink her milk and listen too. But a young must watch her manners.

YVONNE—Give me a big glass of milk, says Yvonne, and—and—and—well, I'll drink it down. And by the way Yvonne appraises the delicious and health-giving liquid, it is apparent that she will keep her word. In another minute she'll probably make good her threat.

'Nightmare,' Says Draper Wife, Back

New York, May 14 (AP).—Mrs. Hazel Margery Archibald Draper, daughter-in-law of the late governor of Massachusetts returned to New York today aboard the liner George on which she was discovered as a stowaway April 28 after she had been reported mysteriously missing.

Mrs. Draper's name was not on the passenger list. She was accompanied on the return voyage by a London nurse and kept to her cabin throughout the trip, officers of the vessel said.

She declined to be interviewed, but through the ship's surgeon, Dr. A. G. V. Elder, said word that "it all seems like a nightmare."

An hour after the liner docked Mrs. Draper's husband, when S. Draper, a former Massachusetts state senator, had not reached the pier, but an executive of the line said Draper "would join her later and take her home."

Mrs. Draper was first reported missing after her disappearance from the Four Winds Sanatorium at Katonah, N. Y., had been noticed April 18.

Traced to New York city, she was found to have registered at a hotel under a fictitious name, then checked out leaving a note establishing her identity and saying that she had changed her mind about committing suicide and was going on the George.

Through Dr. Elder the following message was sent by Mrs. Draper after the ship docked:

"I am very glad to be back home. I just want to go home and join my family. Please don't ask me any questions."

Dr. Elder said that the woman was "in every way."

Mrs. Draper is the daughter of Mr. and Mrs. Silas Archibald of Seattle, Wash. She was married to Draper November 12, 1926.

\$45,000 Bail Set For 3 in Vice Case

Two women and one man held by a federal grand jury following an investigation of vice in Boston and New England, were today held in bonds totaling \$45,000 by Judge Hugh D. McLean in federal court. In lieu of bail the trio were remanded to the East Cambridge jail.

Charged with violation of the Mann act, Mollie Thibault of Westland avenue, Back Bay, was held in \$20,000; Edward J. Murphy, 81, Boston street, was held in \$20,000; and his wife, Audrey Murphy, was held in \$5,000.

'Skeets' Coyne Put In Prison Solitary

James J. "Skeets" Coyne, serving 10 to 20 years in state prison for manslaughter in the slaying of Charles ("King") Solomon, was placed in solitary confinement today by Warden Francis J. W. Langdon.

The warden simply said Coyne had violated the prison rules, but it was learned the punishment resulted from an investigation of the disappearance of underwear. Coyne had been employed in the underwear shop at the prison.

COAL SHOVELERS' JOY

It Comes With Gaily Hued Walls

Washington, May 14 (AP).—Delegates to the American Federation of Arts convention today pondered over the problem—Will coal shovelers be happier in gay surroundings?

Addressing the opening session, Dean Melvin R. Haggerty of the University of Minnesota School of Education said shovelers and boiler room workers generally would welcome colorful places in which to toil.

"One day," he said, "the telephone rang in our art department. It was the municipal painter."

He added that the men became much happier and were appreciative of the new color scheme.

Rich Chinese Slain, Hunt White Girl

New York, May 14 (INS).—Assaulted and mutilated by a pitiless henchman, the body of Kang Wang Woo, partner-owner of a Far Rockaway Chinese restaurant, was found in the blood-spattered room near the restaurant today.

Minus clues, police immediately launched a search for "a beautiful American lady" reported to have accompanied Kang, a turf addict, to the Belmont Park race track yesterday.

Han Ming Tchuan, the murdered man's partner, told of Kang's woman friend. Yesterday he said, Kang made only a brief appearance at the restaurant.

At noon, a private car said solemnly in the curb. Han got only a quick glance of the occupant.

"Lovely Mexican lady at the wheel," he told police.

His plant eyes inscrutable, Kang left the restaurant and climbed in beside the woman.

Han and Samuel Wagner, the latter a counterpart in the restaurant, stumbled across Kang's dismembered corpse in his room early this morning, they told police.

Girl Held in \$2500 For Malden Theft

Miss Helen A. Delany, 25, of Brooklyn, N. Y., was held on five counts of larceny in Malden District Court under \$200 bond on May 14.

Miss Delany was charged with fleeing Malden, Massachusetts, in a bus-house clothing store.

Several century-old coins and 400 Indian-head coppers and stamps were stolen from the Old Coin and Stamp Shop, on Washington street, during the night.

WOMEN WANT MORE U. S. JOBS

The executive board of the Massachusetts Women's Political Club announced today it had appealed to President Roosevelt to revise Works Progress Administration rules in order to give women and men actually needy persons employment.

Miss Florence Birmingham, president of the club, who signed the letter, criticized Paul Edwards, acting WPA administrator in Massachusetts, for failing to accept "the advice of the elected United States Senators and Representatives."

Miss Birmingham criticized the barring from jobs of persons not on relief on May 31, 1935, and said a "privileged clique" was receiving employment.

The letter said "women in Massachusetts feel keenly that nothing was done for the single and widowed women in comparison with their need." The letter said that the existing policies were injuring the New Deal, politically, in the state.

Death Ray Kills Bugs; Frees Man

San Francisco, May 14 (AP).—Henry Fleur's death ray machine worked.

The scene was a courtroom where Fleur was on trial on grand jury charges. Two investors claim that the device would kill insects and other pests as the venter had claimed.

Fleur brought out the machine he defended. It hummed as it was tested. Its beam was pointed toward a couple of termites 10 inches away. In 25 seconds they were dead. A lizard died 4 1/2 minutes after a beam had been turned upon it.

The jury took only four minutes to bring in a verdict acquitting the inventor.

Asked if the machine could be developed to kill human beings, Fleur replied it could, with sufficient power, but added emphasis:

"I don't intend to do any experimenting along that line."

The inventor said he hoped his machine eventually would be found of practical use in killing agricultural pests.

U. S. GIRL IN MYSTERY

Paris, May 14 (AP).—Police answering the frantic call of a girl they described as "an American of good family," found a dead man in a luxurious bachelor apartment today.

The dead man was identified as Luigi Mayer, Italian agent in Paris antique dealer. Police withheld the name of the girl, who said Mayer was her father.

Investigators suspected Mayer had poisoned himself. The girl told them, they asserted, that Mayer would have after a chance meeting in a Montparnasse cafe, telling her he was an interior decorator.

When she visited the apartment, she said, Mayer told her he felt ill and asked her to pour him a drink.

In a few minutes he toppled over, dead.

BREWER IS ILL, SEEKS NEW AUTOPSY

Wiscasset, Me., May 14.—(AP)—Brewer, 45, the Boothbay Harbor "lobster king" awaiting trial for alleged wife murder, was reported ill today by officials at the 150-year-old jail where he is the only prisoner.

They expressed some concern over his condition. Brewer has suffered in the past from a stomach disorder and has no palate for jail fare.

An order for the examination of the body of his 36-year-old wife, Dora, alleged victim of a suicide bomb murder, will be sought by Brewer's lawyer in superior court today.

Attorney Barleigh Martin, of Portland, leading Brewer's defense counsel, expressed the opinion today that a second autopsy would give definite proof of his client's innocence.

Prosecution officials, also favorable to an examination, did not plan any opposition to the defense move, they indicated. Dr. Julius Gottlieb, state pathologist, will represent the prosecution at the second autopsy.

Attorney Martin said he was anxious to have Dr. Timothy Leary, Boston medical examiner, perform the autopsy.

It was learned here today, however, that Dr. Leary is to discuss on a six-week leave from his duties and Martin today was seeking another eminent surgeon for the task.

Martin also announced that he was seeking the services of two renowned handwriting experts to aid the defense case.

Albert S. Osborne, of New York city, and Joseph H. Clarke, of Providence, R. I., were two he had in mind, he said.

Maine Slayer Suspect With Counsel

(Picture from International News Photograph Service.)

Attorney Barleigh Martin, of Portland, head defense counsel, of the case with Tuglin Brewer, Boothbay Harbor "lobster king," who is charged with the slaying of his wife. Brewer is shown in his cell of the Wiscasset jail awaiting trial, May 25.

Fin. Com. Charges Mayor's Budget 'False,' 'Juggled'

Continued from First Page

annually with the mayor's approval, refused to give a copy of the budget to the finance commission on the pretext it was not ready.

"Later he rushed it before the city council when there were not more than ten days within which it could be scrutinized."

The commission has learned that after city agencies which desired to examine the detail were likewise denied access to it. This has never happened in any previous administration.

"In 1933 it was decided to allow the annual receipts of the cemetery division from sale of graves and for perpetual care to accumulate until the income from the fund would be sufficient to pay the annual expenses of this department."

"Now the budget commission has planned to replace a \$40,000 reduction in the budget allowance for the cemetery division with \$40,000 taken from the income of the division's trust fund."

"This misleads the taxpayers into the false belief that the budget has been cut \$40,000."

The welfare department allowance for this year is \$12,725, 80 less than the amount last year. This welfare decrease is 98.3 per cent of the total budget decrease claimed by the mayor.

"FOOLING THE PUBLIC"

As the bureau of municipal research has pointed out, this reduction is not justified by any indication of a decline in the number of welfare cases. Adequate funds for welfare must be provided. And when the tax payers for welfare purposes are exhausted, the city will have to borrow.

"It is, therefore, apparent the decrease in the welfare budget is a false decrease. The taxpayers

have been misled into the belief that a reduction is being made, when in fact the reduction is only a temporary device to fool the public."

"Last year, the mayor added 38 constables to the 50 employed the previous year. Department heads admitted not more than half-dozen of the original 50 were necessary. Now the mayor adds 10 more constables, making the total increase for constables in two years \$60,000 from \$30,000 to \$110,000."

The commission wants the mayor to explain why he is adding 10 more constables as well as what he proposes to do in 1936 with the 25 added last year. If a satisfactory explanation is not forthcoming, the commission is going to the courts to prevent improper expenditure on constables.

"It seems plain to the commission that, though many believe the mayor has reduced the budget, all the money he knows is being expended in the apparent decrease has been accomplished only by 'juggling the figures.'"

The Municipal Research Bureau points out that the net result for departments outside the budget all the money he knows must be appropriated for welfare, there would be nothing to offer this \$100,000 increase.

"The Finance Commission agrees with the Bureau of Municipal Research that the city is likely to have a tax rate of 4.5 in 1936. The only thing that will prevent it is the continued juggling of the figures" by the mayor and budget commissioner."

B. U. Names Fund For Woman Deaf

In recognition of twelve years of service to women students at Boston University, a \$1000 permanent scholarship fund for B. U. women will be named for Mrs. Lucy Jenkins Franklin, dean of women, Dorothy Willard, president of the women's graduates.

Judge Aids Cripple

Although he had pleaded guilty to kidnapping a taxi driver, a crime for which his brother is now serving 15 years in Alcatraz penitentiary, Howard Nelson, 25, of Cleveland, N. H., got off with a year's suspended sentence and two years' probation today in federal court.

WIFE DIVORCES GODDARD

Continued from First Page

Cole Goddard, a noted Georgetown, who was last seen in Reno on cruelty charges. She also was custody of one child.

It was in 1933, while Goddard was in the Irish Free State conducting a survey for Harvard University, that he met his second wife. She and the expatriate were married in Boston, December 23, 1933. Six months later they returned to Ireland to complete Goddard's work, the wife testified. They remained there until the fall and returned to Brookline, November, 1934. "After our return," Mrs. Goddard said, "his affections were not the same. He always excused me for things I did."

SHE TELLS OF SLAPS

"Once, while we were living in Chestnut Hill, Brookline, he burst into my room and reproached me for something I had done. He called me a fool and slapped my face."

"Another time, in 1935, he slapped my face while we were out riding in an automobile. He was always sarcastic and criticized me in front of my friends for my conduct of household affairs."

"One day he came into the house and started a row about something my white collie dog had done."

"He grabbed her by the throat and threw her down the flight of stairs. I sheltered to his abuse of the dog and he grabbed me by my arm. He said: 'Put throw you out, ton, and put both of you out of the house!'"

ARM BLACK AND BLUE

My arm was black and blue after that scene."

An attorney representing Goddard filed a petition for divorce which was accepted by the court and which provided that Mr. Goddard should receive the income of a trust fund of \$12,000 set up for her.

The instrument provides that the money is "in satisfaction for all payments due or becoming due . . . and in lieu of any alimony present, past or future."

Goddard had taught in several private schools after his graduation from Harvard as well as taking part in exploring expeditions in Europe, Asia and Africa. He is a member of the Rowing Club, the Union Boat Club and other nautical organizations.

Three Men Given Springfield Medal

Springfield, May 14.—The William Pincheon medal, annually awarded to one or more outstanding citizens, has been granted to three men prominent in civic activities.

They are The Rev. George S. L. Connor, rector of St. Michael's Cathedral; Herman Isenburgh and Frederick Whitmore, author of the elementary text "Springfield."

Ely Raps Curley's Plan To Retire Judges at 70

Continued from First Page

was reverence for age," said Ely. "The murder statute of Massachusetts says that a killing with extreme cruelty and atrocity is murder in the first degree. The governor's cruel, heartless method of approaching the retirement of judges, to my mind, comes within that definition."

30 FACE OUSTER

"Of course it is done to protect himself. He began his term of office by shutting off investigation of his acts as mayor, and evidently he is going to end it in an attempt to attack the courts."

Names of 30 judges who will be affected were revealed today. The judges, their ages and assignments are:

Supreme Judicial Court: Arthur P. Rice, 73; John C. Crosby, 63; Edward P. Pierce, 72.

Superior Court: James H. Sisk, 73; Marcus Morton, 72.

Probate and Insolvency Court: Charles L. Field, 72; Henry P. Dow, North Andover, 74; Harry P. Field, Northampton, 73; Lloyd E. Chamberlain, Brockton, 72.

William M. Pratt, Boston, 74.

Land Court: Charles Thornton Davis, Marblehead, 74; Joseph C. Corbett, Boston, 73; Clarence C. Smith, Newton, 72.

District Court: Francis McCooey, Stoughton, 71; Gerald A. Healy, Stoughton, 72; Nathaniel N. Jones, Newburyport, 74; Samuel R. Cutler, Chelsea, 73; Thomas L. Gallagher, Fitchburg, 81; John Perkins, West Roxbury, 72; Frederic A. Fisher, sale removal occurred.

Nip and Tuck

Newark, N. J., May 14 (AP)—"Nip" and "Tuck" arrived at the Newark airport in the handbag of Miss Grace Olive Wiley of the Minneapolis Public Library.

"Nip" was the right head and "Tuck" the left head of a two-headed snapping turtle.

"You don't have to be rich to enjoy rich whiskey!"

OLD QUAKER DISTILLING
RULE NO. 28

To produce a barrel of quality your whiskey barrels must be of highest quality . . . the finest white oak!

You'll Enjoy
a barrel of quality in every bottle!

Old Quaker sticks to all the rules of fine distilling, though it's sold at a friendly price

See rule 28! It's just one of the distilling rules that Old Quaker always sticks to, through thick and thin . . . just one of the many rules that lead to rich richness and mellowness in Old Quaker straight whiskey. Old Quaker has been in the whiskey business for a long, long time, and knows that rich whiskey becomes poor whiskey the very instant its maker fails to obey any of the rules.

So nothing will ever tempt Old Quaker to disregard a single rule . . . and Old Quaker also sticks to the Golden Rule when it comes to price. How about you and Old Quaker making friends today?

HARD MEN RAP "WASTE" OF NEW DEAL

Reflecting the sentiment of an ever-increasing number of students in eastern universities, a group of Harvard athletes and student leaders today made known their fears for the nation's economic and political future should the Roosevelt administration be returned to power.

One of the most important subjects in the nation's oldest university is the New Deal's wasteful policy on relief, according to Tom Quinn, president of the Harvard debating team.

"Some form of debt would have been much better than the waste of the FPA and would have offered much less chance for graft," Quinn stated.

"Roosevelt's policy of borrowing the country into prosperity by his bootstraps is bound to prove a boomerang. When prosperity does get here, there will be a clamor to reduce taxes—and taxes cannot be reduced until the tremendous deficits of the present administration have been paid off in full."

District of the incumbents because of spendthrift policies and their total disregard of platform promises was advanced by Stanley Deland, manager of the Harvard football team.

HITS FLEEWIGHTS

"Roosevelt has not acted like the great politician he is supposed to be," Division editor said. "The reference to the 'how-and-why' days after the NRA decision sounded more like a spoiled child than a President of the United States."

Football Captain Skann Kelly, a Democrat, expressed his lack of confidence in "New Deal imperialism." Making known his apprehension of "where Roosevelt's advisors are trying to lead us," he declared that they look like "flawless intellectuals" to him.

The present college generation must take notice of the reckless spending, as eventually it will have to pay for Santa Claus," he added.

"I've been concentrating on history, and have never yet heard of a government getting out of a hole without balancing its budget—which is what the 'New Deal' must do or sink."

Is Judy Rudy's Next?

JUDY STEWART
Ex-Chorus Girl May Take Pay Webb's Place

(Copyright 1936, by Universal Pictures and the New York Daily Mirror)

New York, May 14—With the Rudy Valle-Fay Webb marital tangle finally about to be cut via the California divorce court, the way is now clear for the crooner to take sleek-eyed Judy Stewart, a former Broadway chorus girl, with whom he has been on the fringes since last September, as his third wife.

The Daily Mirror learned that Judy, with a chaperone, spent this week-end at the Valle camp retreat in Maine, and returned today by automobile to New York with the singer.

Judy's mother, with whom she lives in a furnished rooming house on West 88th street, emphatically refused to deny that her daughter was the "unknown young lady" referred to by papers as the prospective third Mrs. Valle.

"I couldn't say no," she told the Daily Mirror. "But I will have to come from Judy herself."

CINDERELLA STORY

The Judy Stewart-Rudy Valle romance is a main item in the life-story of the singer. Judy, then 18, came to New York from her native Florida two and one-half years ago. During the spring and summer of 1934, the exotic beauty—who has blue-black hair, large, almost Oriental, dark eyes, and an olive skin deeper even than Fay Webb—worked in the chorus of Billy Rose's Music Hall.

PUBLIC WORKS CHIEF PLAYED BY BIGELOW

Rep. Albert P. Bigelow of Brooklyn, who is seeking appointment of a special House committee to investigate state public works department expenditures, today accused Public Works Commissioner William F. Callahan with trying to mislead the ways and means committee.

The accusation was made before the House rules committee during a continued hearing on the order for the special committee.

Resenting criticism leveled at the ways and means committee by Callahan yesterday, Rep. Bigelow said today if Commissioner Callahan had cooperated with the ways and means committee and had given a complete picture of conditions instead of trying to mislead us on certain facts we could have solved the problem more quickly.

INDICT NEWELL ON 5 COUNTS

Worcester, May 14—George H. Newell, 38, Holden town tax collector, who was brought back from Miami, Fla., under arrest, today was indicted on five counts of larceny.

Police charge Newell allegedly lost a fortune in town funds trying to make his own fortune at the race track.

Although the audit of his accounts as tax collector has not yet been completed, authorities said the shortage would be approximately \$20,000.

Four counts charge Newell specifically with the larceny of \$200, \$120, \$150, and \$120. The fifth count is a blanket indictment charging a larceny of more than \$100.

Buys Shotgun, Takes Own Life

Fitchburg, May 13—Wendell H. Hinkins, 65, superintendent at the courthouse for 21 years, committed suicide today with a shotgun, in a vacant lot on Longwood avenue.

The suicide gun had been purchased earlier in the day and still had the price tag on it. Hinkins had rested the butt of the gun on his knee and pushed the trigger with a stick. The right side of his face was blown off.

Grounded Ship, 140 Aboard, Afloat

Seattle, May 14 (AP)—A radio message to the Northland Transportation Company today said its steamer North Sea, earlier reported aground, had been refloated and was proceeding slowly to Ketchikan.

No word was received here as to how the North Sea, with 140 passengers aboard, grounded on Point Marsh, near Dixon Entrance on the inside passage to Alaska.

NEVER IN MOVE TO RIP DOWN BILLBOARDS

Nine petitions to restrain advertising concerns from maintaining billboards in Boston and Somerville were filed in Supreme Court today by Attorney General Sawyer.

The petitions allege the signs are violation of rules established by the state public works department and violate certain state statutes.

Three of the petitions are against John Donnelly & Sons Advertising Agency, of which Governor Cury's assistant, Edward C. Donnelly, is a member.

Attorney General Sawyer claims the bill boards violate the law by being within 150 feet of the middle line of two intersections, or being within 50 feet of a street line and by being in a residential section.

The petitions are against the following:

John Donnelly & Sons and Sprague & Sons, 151 Washington street, Forest Hills, and Danaher and Donohue, 151 Brighton avenue, Allston.

The Coco-Cola Bottling Company and property owners Bartholomew J. Connelly at 1504 Commonwealth avenue, Allston and Mary P. Connelly at 1284 Commonwealth avenue, Allston.

The Movie Company and Property Owner Bartholomew J. Connelly at 1504 Commonwealth avenue, Allston; the Eagle Advertising Company and Property Owner Leone Welch at 330 Washington street, Forest Hills; the F. H. Finch Company at 1242 Commonwealth avenue, Allston; and the J. P. Cox Advertising Company at 1514 Washington street, Somerville.

Comfort Shovel, Lads! More Rest for Weary Soon

With no little excitement, word was received today from West Springfield that a lover of mankind by the name of C. H. Martin invented a comfort shovel to be sold to politicians for free distribution to tired constituents.

This is a very decided boon to the boys who are hired off the corners by the politicians and put to work here and there on public projects by the sweat of their brow, but not much.

BOON TO TIRED

It is a boon to the tired lads, because midway between the top of the handle and what is called the spade proper there is a seat so that the worker, when he gets more tired than usual, can sit down and get a rest.

If the shovel holder prefers the ordinary standing stance, however, the top of the handle is provided with a saddle or arrowing in which the forearm may be cradled with ease, with the strain of the worker's weight taken up softly and with no possibility of the bone aching after several hours as at present.

The inventor, friend Mr. Martin of West Springfield, if you recall, has gone even further in this honor and has made his shovel handy enough so that the worker is no longer under the necessity of applying a slight strain in order to lean from the standing position.

EASER STRAIN

This is calculated to ease the strain on the back muscles if they have been employed for long in the inverse position, such as in holding up buildings.

There is also another thought in the inventor's mind, and that is the least forward eliminated, the worker is in less danger of slipping off and falling to the ground should he go to sleep, a not infrequent occurrence which occasions to the worker the strain and exertion of picking himself up again and resuming the original position.

HERE IT IS

Amelia Earhart's New Plane Ready

Burbank, Calif., May 14 (AP)—A new low-wing monoplane, crowded with special equipment and fuel tanks, is nearly ready to carry Amelia Earhart on long-distance experimental flights.

Aviation circles speculated today whether the famed woman pilot would try to fly solo around the world in four long loops. The new ship has a cruising radius of 4,000 miles.

ZEP SETS NEW RECORD ON HOP HOME

Frankfurt, Germany, May 14 (US)—The Zeppelin Hindenburg set a new transatlantic airship record this morning, landing at 8:40 a. m. (12:40 a. m. E. D. T.). She made the Lakehurst-to-Frankfurt flight in 40 hours and 18 minutes.

The huge dirigible arrived over the field at 4:45 a. m. and slowly circled over the city of Frankfurt, offering a majestic sight in the golden rays of the morning sun.

The ground crew of 250 recruited Nazi Storm Troops quickly caught the ropes on Capt. Ernst Lehmann's order and hauled the ship toward the ground at 5:40 o'clock.

A band inflamed Chancellor Hitler's favorite Bandenwehr march, "Deutschland Über Alles," while the ground crew slowly marched the Hindenburg to the mooring mast where the Zeppelin was tied up at 5:55 a. m.

The Hindenburg's passengers smilingly answered the cheers of the large crowd gathered at the airport to greet the arrival of the huge dirigible with her 104 passengers and crew.

The docking of the mammoth ship marked the official christening of this new airship.

A detachment of brown-uniformed Hitler youth—German Boy Scouts—were drawn up in parade fashion and welcomed Billy Gogan with upraised arms.

Finally burying the axe with Commander Hugo Eckener, the prominent Nazi party official gave the veteran pilot a huge silver cup in behalf of the city of Frankfurt with a personal dedication engraved.

BILL TO SEEK LIGHT ON DEAL "BLUNDERS"

Washington, May 14 (INS)—Complaining the Roosevelt Administration has continually suppressed information in its possession, unfavorable to its position, a small group of House Republicans today sponsored legislation to force such facts into the open.

Rep. Clarence J. McLeod (R., Mich.), prepared the legislation and will introduce it today. Under his measure whenever any 40 members of the House, or one-third of the membership of any single standing committee, sign a petition asking an executive department to produce certain information, the department must comply.

Introduction of the measure was the result of half a dozen unsuccessful attempts of House members to have passed regular resolutions calling on the government departments for information.

McLeod recently introduced a resolution calling on the administration for a report on relief work, completed by Hugh S. Johnson, former head of the defunct NRA, and this measure was promptly killed in committee.

"The object of this new resolution," he said, "is to tear away the mantle of secrecy which the Administration has thrown around its blunders."

In the case of the Johnson report, reasons given for the adverse report by a committee was that the name of several "innocent persons" were mentioned, and that these individuals might be injured. It seems to me that Congress—not the executive department—should determine whether information should be disseminated.

McLeod said that he and several other Republicans, whom he did not name, would make a fight for enactment of his resolution making it easier for the House to acquire information from Government departments.

JAPAN TO BUILD MORE FORTS IN PACIFIC

Tokyo, May 14 (INS)—Dropping the mask of "harmless improvement," League of Nations naval inspectors charged, disguised Japanese fortifications on the Pacific Islands, the government came out in the open today with plans for building more forts.

Preparing for an era with no treaty restrictions on the size of navies, General Count Jushi Terauchi, the war minister, today announced that the army would "restore" the Pacific fortifications. He is believed to have referred to forts in the Japanese group proper, as well as the mandated islands lying within speedy sailing distance of Guam and the Philippines.

"Unless a new naval treaty is concluded, Japan's post-treaty plans for forts must be revised," said the war minister.

"Moreover, the new situation in the Pacific demands creation of additional defensive zones in co-operation with the navy."

As yet, he added, the government is not contemplating fortifying a defensive line based on the Porosma area, immediately north of the Philippine group. This may depend on future moves by the United States.

Count Terauchi's startling announcement came as news was pointed here that Britain intends to build more destroyers, and has asked the "powers concerned," including Japan, for permission to exceed treaty limits.

Daily Tax Fact

By B. C. Forbes

Will voters next November choose an administration which has daily incurred the most colossal expenditures in all history? Or will they choose one committed to economy?

The answer at this stage is doubtful.

But the rising resentment against taxes is not at all doubtful.

One publication presents the replies of 3683 newspaper and farm journal editors (less than 10 per cent of them are Republicans) all over the country to various tax questions; they were asked not to give their individual opinion, but the composite sentiment of their communities.

The number of No's in each case tells the response, the balance being made up largely of affirmative replies and a minor percentage characterized as "doubtful."

"Does public opinion in your community favor increased taxes on business concerns?" No—30.1 per cent.

"Does public opinion in your community favor increased taxes on individual incomes?" No—25.5 per cent.

"Does public opinion in your community favor increased sales or service taxes?" No—84.6 per cent.

"Does public opinion in your community favor increase of public debt by state and local governments?" No—85.7 per cent.

"Does public opinion in your community favor increase of public debt by the Federal government?" No—81.4 per cent.

But when colossal sums are spent, a day of reckoning cannot be permanently evaded.

A KIDNAPER'S DOORS CLANG ON ROBINSON

Atlanta, Ga., May 14 (AP)—Federal guards brought Thomas H. Robinson, Jr., to Atlanta by train from Louisville today to serve a life sentence for the \$20,000 kidnaping of Mrs. Alice Speed Stolt.

The 29-year-old Tennesseean, who pleaded guilty in Louisville last night, was hustled to the white stone federal penitentiary in southwest Atlanta less than 48 hours after his arrest in Glendale, Calif.

Federal agents, headed by E. E. Conroy, chief of the Atlanta Bureau of Investigation, met the train, Tiresias and dressed in a tan suit, Robinson climbed faintly and said nothing upon his removal from the train.

WHISKED THROUGH CROWD
He was handcuffed to a marshal, Federal agents deployed in a circle about him and marched swiftly through a silent crowd of approximately 100 persons to a side entrance of the station, where a motor convoy awaited.

There was no demonstration.

Robinson was thrust into the middle car of three lined up at the south. Four agents seated themselves with him. The others entered the front and rear machines.

As Robinson was sandwiched between the G-men in the rear seat, J. G. Sullivan, an Atlanta patrolman, chided the notorious female kidnaper.

"You don't look like a woman."

SMILES AND WAVES
Robinson laughed and touched the brim of his hat.

"To tell you the truth," he said, "I'm not."

Sirens screamed and the procession moved swiftly to the prison gates.

He was checked in at the side of the station and taken to the prison.

Not a gun was in sight outside the prison, in reception of the kidnaper, a "lone wolf" without the organized backing of gangsters and last of the "big money" kidnapers of 1933-35.

Robinson waved and smiled to officers in the front car of his motorcade as he stepped from the prison slowly, twisting about as if for a last glimpse at the world of freedom he sacrificed for the abduction of Mrs. Stolt, a Louisville society matron, in 1934.

Think of your own Constitution and go Back to WILSON that's all

Your constitution will get along better on a balanced life. Work, of course. But relax, too. The right whiskey at the right time, in right amount, has its place.

But which is the right whiskey? In the old days, when whiskey was whiskey, Wilson was the blend. The same distiller who made it then, makes it today! His experience now is so much greater. He has vast stocks of richly aged whiskey at his call. Every sip of Wilson takes you back to those good old days.

So be particular about your whiskey. Realize that "blends are better, Wilson, best!" Think of your own constitution and always ask for "Wilson—that's all."

Flier In Diary Tells of 45-Day Death

Moscow, May 14 (AP)—A tragedy of the Soviet northland was brought light today with discovery on barren Chukotka Peninsula of the wreckage of an airplane and the body of one of its crew of three.

The plane had been missing five months. The man had died of cold and starvation.

With the body found reclining in a tent close to the wrecked airplane, there was a diary showing the victim—a mechanic named Bogdashcheyev—had lived 45 days after the accident, his strength slowly waning, while he waited in vain for help.

His two companions, G. Volobuev, chief of the Chukotka aerial group of the Northern Sea Route Department, and Pilot Buturin set out 27 days after the crash in search aid and never were heard from again.

Wife Finds Man Injured in Roxbury

Walden Munroe, 35, was found unconscious today by his wife on a third-floor stairway of their home at 72 Williams street, Roxbury. While nobody witnessed what happened, he is believed to have fallen from a ladderway leading to the roof on which he had been making repairs for several days. He suffered a fractured skull and is at Boston City Hospital.

War on 'Mashers'

Auto "mashers," who have been following women in Cambridge and attempting to lure them to enter cars, are to be arrested in a series of raids issued by Police Chief Timothy F. Leahy.

Big Wind

Mendon, Ct., May 14 (AP)—Answering an alarm, Deputy Fire Chief Arthur Harris and four companies of firemen found the owner of an automobile trying frantically to put out a fire around the carburetor—without success.

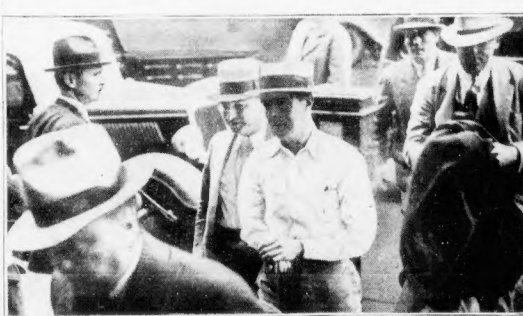

Harris merely took a deep breath, bent over and blew lustily into the flames. That ended the fire.

ADVICE on LOVE and MARRIAGE by BEATRICE FAIRFAX

O. O. McIntyre's Recipe For Happiness Gem Of Philosophy

By BEATRICE FAIRFAX

We find happiness where we find ourselves. For that bit of sound philosophy I am indebted to my good friend, O. O. McIntyre, whose "New York Day by Day" is read by millions of people every evening in the year.

We find happiness where we find ourselves—think this over but a minute and you'll agree it's about the truest thought one could put into words.

You may live in the little cottage down by the river no one ever thinks of visiting. Or your home may be the penthouse atop the big city skyscraper. Yet, you can never be glad in heart, content in soul, at peace with those about you, until you have made the acquaintance of yourself, learned what you can do, found out what you cannot do.

Meet yourself face to face. That's my advice to all readers. Know yourself as well as you know the woman-next-door or the man-across-the-street. For when you do, you will have found the only lasting, enduring happiness possible in this world.

My five-dollar check goes today to Mrs. X, of Brighton, who writes me this interesting letter:

DEAR MISS FAIRFAX: I was especially interested in the pathetic letter written you by the woman who signs herself Mommie. We all know her heart is broken and everyone naturally sympathizes with her. My advice is the same as you give her—she should go immediately to some institution and adopt a very young baby. In taking a baby as soon as possible after birth, she will find it will grow with her and be just as loving as her own.

I am a mother of two children, a son and daughter. And because I love children I have been having been the medium by which many of my children's friends adopted babies. In every case the foster children proved a source of happiness to these couples.

And in more than one instance marriages that were tottering on the brink of disaster were saved and happiness returned to the couples.

Every husband and wife who find they cannot have children should lose no time in adopting little boys and girls. It is the one sure way to contentment.

MRS. X.

Isn't this a beautiful letter. I know you readers are going to like it as much as I do. Tomorrow we shall have more letters and another five-dollar award. Every reader is invited to write.

My other fine letters are as follows:

DEAR MISS FAIRFAX: The man I love is married, and though he has been separated from his wife for several years, he is unable to obtain a divorce. Three years ago we went to live together. And, contrary to what you or others would think, we are reasonably happy. My advice is live your life as you want to live it, not as others would have you live it. My own life is sufficient proof that this works.

BETSY.

MY DEAR FRIEND: It would be wiser to live with this man a little longer before you boasted too much about your happiness. You know your life for short of what it should be. And the only one you are fooling is yourself.

True, you have the man you love. But you haven't the respect of your neighbors and friends. Wherever you go you must ever be alert to the whispered remarks of those who do not approve of your defiance of convention.

Of course, if the love you have for this man is so great that it makes up for your loss of reputation, you may be happy now. Still, I'd hesitate to make any prediction regarding your ten years hence. Heaven help you the day this man falls out of love with you.

BEATRICE FAIRFAX.

DEAR MISS FAIRFAX: My marriage was a horrible mistake. Two years ago I was young and foolish. Frank came along and literally swept me off my feet. Though I hardly know him, I became his wife and we were blissfully happy just as long as my savings lasted.

My money gone, my eyes opened, I today are my husband as he is. Morning, noon and night I behold a lazy, selfish, good-for-nothing individual, who has even the gumption to keep himself neat and clean.

What can I do, Miss Fairfax? My religion prohibits divorce and my family would never speak to me again if I ever mentioned a desire to obtain one. CLARA J.

MY DEAR CLARA: One of the most sorrowful of life's tragedies is marriage with a lazy, selfish husband. Expensive as when the wife is proud and ambitious. Divorce being out of the question, your job is to make a man of your husband. It will be hard work, but not impossible. If you can succeed, even though you have to put every man's

your strength into the job. If he were my husband, I'd beg my friends to visit me. I'd let them flash their new automobiles, their good clothes, their money, their flash of success in his face. I'd appear to thrill to every word they uttered. I'd encourage them to boast and exaggerate as much as they wished. And if there were even the slightest spark of ambition in your Frank, he'd be bound to grow jealous and envious of the success of others. Go to work upon him. Let him know that he could be just as prosperous as your friends if he were willing to work for prosperity. It will take time, of course, but the odds are strongly in your favor. For it's my bet that, properly handled, your husband can be transformed into a new kind of man.

Whatever you do, seek to keep your husband away from men as shiftless as he.

BEATRICE FAIRFAX.

Lure of Sleek Contours

POSED BY JANE LANE

Learn to Swim

By DONNA GRACE

FOR some years we have learned to look upon swimming as a year-around sport. It is true that it always has been real summer sport, but with the popular winter resorts, where one may indulge in all beach activities, we may swim during all the seasons.

Then there are the fine swimming pools that may be available in every community, and these pools, you know, are the very best places to learn to swim.

There are some who may think swimming lessons are not necessary and only a waste of time, but all the really good swimmers must learn correct breathing as well as the actual strokes. So, if you are going to share in your beach antics during the summer months, it is high time to begin.

Good swimmers need to practice what they have learned, and the beginners should take at least a few lessons under the direction of an expert.

You will find there is more real joy in ten minutes of correct swimming than hours spent in paddling about wearing out your strength. You will learn that nearly every correct swimming stroke receives all the muscles and for those who would normalize their weight, it is the ideal method.

You could be a good swimmer if you will just get in and try, and with my swimming instruction it would be no easy task to understand and follow.

This course is similar to the style used by some of our very finest swimmers, and you may have it without charge, if you will enclose a stamped, self-addressed envelope and address Donna Grace, Boston Evening American.

Bridge A Coup Is Ruined

By JOSEPHINE CLIBERTON

Not all the major errors at the Bridge table are of a technical nature. Mannerisms, such as facial expressions, seat-squirming and premature "reaching for tricks" may be of incalculable help to a declarer.

A large proportion of squeeze-plays is brought to the attention of none-too-expert declarers simply by the fact that one of the defenders acts as though he were in trouble for a safe discard.

Other situations also demand great care. In today's hand one defender completely ruined a prospective coup by his partner by reaching for a trick that the latter was trying to conceal.

South was in.

Both sides vulnerable.

The bidding: South 1♠, North 2♠, East 3♠, South 4♠.

West opened the fourth-highest heart and declarer won East's Queen with the Ace. Now the ten of diamonds was led up to the dummy. West played the five of diamonds, the three and the two. Declarer cut his own hand.

Without West's incredibly stupid gesture, which of course "gave away the show," the declarer would have been in quite a dilemma. Even though he realized that East might be holding off with a snugly guarded King, he certainly could not be sure of it and must have well have decided in favor of a second time.

New Tulip Quilt

PRIDE OF THE GARDEN

PATTERN 1118

GLOWING tulips—the "Pride of the Garden"—lend themselves readily to an applique design which makes up quickly and easily into one of the loveliest of quilts.

Inexpensive because made with scraps at hand, the simple patches may also brighten scarfs and pillows.

Pattern 1118 comes to you with complete, simple instructions for cutting, sewing and finishing, together with yardage chart, diagram of quilt to help arrange the blocks for single and double bed size, and a diagram of block which serves as a guide for picking the patches and suggests contrasting materials.

Send 10 cents in stamps or coin (coin preferred) for this pattern to Boston Evening American, Needlecraft Department, 32 South Avenue, New York, N. Y. Write plainly PATTERN NUMBER, your NAME and ADDRESS.

Fashion Flashes

THE EXQUISITE mermaids

of the ancient mariners' dreams who, as Pygmalion, come to real life on the beaches this summer should paddle go in for new fanciful bathing suits.

In the collection of beach novelties shown by the designer today were several examples of swimming bathing suits in the

new material which resembles an closely the scaly back of a fish.

Other items for wear at the shore also followed the nautical trend. There were hats to resemble sea shells and yellow suits fitted with pulleys for buttons.

One could almost imagine the girls sliding chaotically while using the garment.

How little does GE refrigeration cost these EDISON CUSTOMERS?

Tests Show Amazing Economy of Oil Cooled Refrigerators

Results of many actual tests, some of which are shown here, prove conclusively the remarkably low operating costs of General Electric OIL COOLED Refrigerators. The average operating cost in all the homes tested, including both large and family-size refrigerators, is only about \$1 a month—25¢ a week for this modern, automatic refrigeration service.

Thus you can buy and operate a General Electric OIL COOLED REFRIGERATOR for as little as \$5 a month

Flat or Monitor Top models—OIL COOLED—may be purchased for as little as \$4 a month. Add average operating costs of about \$1 a month for electricity, and you have a total cost of \$5 a month, or only \$1.25 a week to buy and run a new G. E.

Come in to any Edison Shop today and see the beautiful new 1936 G. E. models.

What G. E. Oil Cooling Means To You

All moving parts of General Electric Refrigerators run in a bath of oil under positive force-lubrication. This means not only low operating costs, such as we show here, but also long life, fast freezing and quiet operation.

SOCONY ANNOUNCES NEW GASOLINE

NEW MOBILGAS ON SALE TODAY

NEW GLOBES GO UP...sign of a new, higher-powered gasoline unlike any you've used. On sale only by Socony dealers.

NEW YORK CITY, May 14—Today, Socony-Vacuum officials announced the introduction of a new, improved gasoline—New Mobilgas—available in the East for the first time. This gasoline goes on sale today at 20,000 Socony Dealers.

In the last few days, throughout Soconyland, great fleets of Socony tank-trucks have visited over 20,000 dealers. New globes are going up on thousands of Socony pumps. Your dealer is ready now—with the *new gasoline*!

It is called Mobilgas...and the best guarantee of its finer quality is this fact: **it replaces a gasoline already a 3-to-1 favorite in this section!**

Socony is proud to announce that the new Mobilgas is better—in three ways:

It is **HIGHER POWERED**. Not only quicker-firing (more pick-up and power), but *more mileage* in each gallon. It has **LESS PING**. Makes all engines run smoother and quieter. It is **TESTED RIGIDLY** for absolute uniformity.

We believe one tankful will prove it to your satisfaction. You'll notice a difference in this new Mobilgas—the finest gasoline Socony ever made.

Why not start enjoying Mobilgas performance today? Just drive in and fill up at the Sign of the Flying Red Horse—your Socony dealer's sign. Standard Oil of New York—Division of Socony-Vacuum Oil Company, Incorporated.

THIS IS LIFE

By Robert E. Rogers

There seem to be two divergent points of view about the H. G. Wells picture, "Things to Come," which is completing its first week tomorrow at a Boston theater. I was invited to the preview last Friday, but was unable to go. Hence this belated notice for what it is worth, in the hope that it may call the picture to the later attention of the Greater Boston film addicts.

ROBERT E. ROGERS

I am, by definition, an H. G. Wells fan. From the time when I was ten years old and Wells was being published in the new ten-cent magazines of the nineties, especially by John Briablen Walker, then owner of the old Cosmopolitan, I have read him. To me such stories as "The First Men on the Moon" and "The War of the Worlds" were a matter of course, up to the latter days when Wells ushered in the World War with his novel, "The World Set Free," all about atomic bombs and the first meeting of the League of Nations, which he published only a few months before Sarajevo ushered in the four-year horror.

Curiously enough, I did not read Jules Verne and, therefore, never considered Wells a second fiddle, as so many of my age still do. Wells came first, and the rest nowhere. I am used to his tricks and his manners.

Experiments at Tech Support Wells' View

It interested me, therefore, to hear a student who had just seen "Things to Come," greatly excited at the spectacle of Mr. Wells visualizing his own ideas. He had never dreamed the thing could be so splendid, so abounding in light and great spaces and impressive architecture and machinery. He had always thought the Wells story rather tricky and sensational, misanthropic, as well as I could make out, the ideas that Wells used to balance his engaging fictions.

Now to see them bodied forth in three dimensions interested me how enormously. For, after all, many of Wells' ideas are no longer incredible fantasies. Even a short list of the marvels in process at Technology—new only the place I know best—would back up Wells as no mean prophet to the discredit of him. Still more interesting was the point of view I met in many professional as well as unprofessional comments. So many people seemed to think that Wells' world of the future was too clean, too light, too mechanical, too perfect for comfort. People dread to think that they have to live in a world where the sun and moon and dinginess, our dark and crowded city life, have been banished forever.

Still less do they like to think of a world functioning in terms of altruistic social thinking, robbed of the selfish individualism of our own competitive world. It just simply isn't homely and comfortable, as they see it.

Technical Co-operation Gives Ideas Vitality

Better fifty years of Europe than a cycle of Cathay. Or better fifty years of Pittsburgh than even a generation of Wells' world in the years after the Greater War. People can't help thinking like that, even while inwardly they recognize that no matter how perfect it is, the world won't quite be like the picture. There will probably be enough dirt, light, and disease, and poverty, and passion and human nature to make it comfortably familiar for the average man and woman.

Nevertheless, it is a great picture, largely because it was written by a very great man with almost perfect technical co-operation. It is most effective, certainly, where it deals with things that have already happened, but more inspiring where it hints pictorially about the possibilities of the years to come.

As Mr. Briablen is so fond of quoting: "What man can imagine, man can do." With that thought in mind, perhaps the controversial ending about the trip to the moon may not seem so incredible, nor so tragic, as it does to some of us.

QUINCY WOMAN GUARDED BY U. S.

LIQUOR WITNESS GETS THREAT

Federal agents and Quincy police guards have been assigned to protect a Squantum woman, witness for the government in its prosecution of a liquor case, it was disclosed today.

We are protecting this woman, Mrs. Florence G. Sawyer of Park avenue, Squantum, from attempts by bootleggers to injure her," Assistant U. S. Attorney Charles W. Bartlett declared. "We intend to protect our witnesses at all cost and will not countenance interference with them."

Bartlett and agents of the federal alcohol law enforcement bureau, as well as members of the Quincy police department, are guarding the woman personally and are stationed about her home.

Tells of Threat

Mrs. Sawyer was on the witness stand three times during a hearing for Ferdinand Radzke of West Squantum street, Quincy. He was charged with depositing and concealing 100 gallons of alcohol on which federal taxes were unpaid, and with removing and concealing the same.

'Happened in Boston' Premiere Tomorrow

Everything is in readiness for the gala premiere tomorrow of the all-local film production, "It Happened in Boston," sponsored by the Boston Evening American-Sunday Advertiser and Loew's State and Orpheum Theaters.

The picture opens a week's engagement at Loew's State and Orpheum theaters, beginning tomorrow, and will subsequently be shipped to Hollywood where it will be viewed by important film officials of the M-G-M company in the hope that some future screen star may be discovered.

At the State-Orpheum premiere there will be present, as guests of honor, many of the city officials, noted educators, business and professional people and other distinguished persons. The occasion will also be marked by the presence of the principals of the cast, who will make a "personal appearance" at 6:45 in the evening.

Leaders in Cast

Included in the group of ambitious boys and girls selected for speaking parts and who will appear at the theater are Marion Flynn, Jeanne Jean, Rudolph, Betty Lee, Nina, Hester Dierman, Keopie Harrison, Edythe Smith, West, Warren Baltimore, Joseph, David, Ed Schinger, David, Small, Edith Small, Jack Stanley, Philip, Charles, Roy, McGinnis, Charles, and Roger Van Joseph Sherriff and others.

The story of "It Happened in Boston" revolves around a high school romance with a liberal sprinkling of comedy and music. It runs two theaters, beginning tomorrow, about 22 minutes to be shown. It was filmed locally with a cast of mostly local talent.

The important roles were played by Marion Flynn and Jeanne Jean, Rudolph, Betty Lee, Nina, Hester Dierman, Keopie Harrison, Edythe Smith, West, Warren Baltimore, Joseph, David, Ed Schinger, David, Small, Edith Small, Jack Stanley, Philip, Charles, Roy, McGinnis, Charles, and Roger Van Joseph Sherriff and others.

At the theater they will be greeted by Manager Stanley Gossnell and his assistant Frank Murphy, who will arrange for their "personal appearance," followed by the thrill of their screen debut.

Go on the Air

At 9:30 they will take part in a special broadcast from the new studios of Station WJLB at 70 Brookline avenue, with John Reilly, radio manager of the station, and Newcomb F. Thompson, radio manager of the station, on the American-Sunday Advertiser, serving as masters of ceremonies.

After Tank Explosion

2nd FLOOR

1st FLOOR

When the water tank in the home of Mr. and Mrs. Willard Cherry, Cutter street, Belmont, exploded, it tore through the kitchen ceiling, and through the second-floor bathroom, imbedding in the ceiling. The blast demolished the first floor. Both Mr. and Mrs. Cherry escaped without injury. Sergeant Harry Carey is shown investigating the kitchen floor, while Patrolman Harold Haag does likewise on the second floor.

Explosion Hurls Pair From Bed

TANK WRECKS WHOLE HOUSE

A man and his wife narrowly escaped death early today when a hot water tank exploded in their home on Cutter street, Belmont, wrecking the house.

The explosion drove the tank up through the ceiling, demolishing it in the bathroom ceiling.

The first floor was demolished, the second floor was blown out, and the water tank was hurled into the air.

The explosion was heard by the report and the sound of shattering glass, and the tank fell from the ceiling, striking a crowd of people gathered in the street.

Mr. Boston Boston 'Ref' for Mat Go

By Jack Conway

ERNE DUSEK has been notified by Joe Alvarez that there will be a Boston referee when Mr. Go has a crack at Danne O'Malley's world's heavyweight wrestling championship at the Garden tomorrow night.

Ernie had been a long time in the making, but he was not to be discouraged. He was a referee in the past, and he was a referee in the present. He was a referee in the past, and he was a referee in the present. He was a referee in the past, and he was a referee in the present.

He was a referee in the past, and he was a referee in the present. He was a referee in the past, and he was a referee in the present. He was a referee in the past, and he was a referee in the present. He was a referee in the past, and he was a referee in the present.

LITTLE WOLF

CHIEF of the Wolf pack, the Little Wolf, was a referee in the past, and he was a referee in the present. He was a referee in the past, and he was a referee in the present. He was a referee in the past, and he was a referee in the present. He was a referee in the past, and he was a referee in the present.

'GANSSETT GOSSIP'

WATCHING Ganssett go on the field, the fans of the Boston Red Sox were reminded of the old days when Ganssett was a player. He was a player in the past, and he was a player in the present. He was a player in the past, and he was a player in the present. He was a player in the past, and he was a player in the present.

He was a player in the past, and he was a player in the present. He was a player in the past, and he was a player in the present. He was a player in the past, and he was a player in the present. He was a player in the past, and he was a player in the present.

FRENCH STARS CONCENTRATE

LaCoste Standout In Smooth Play Game Never Varied

The value of concentration as shown by the play of some of the greatest experts of the game is pictured by Helen Willis Moody in the fourth of her series of ten instructive tennis articles. Some characteristics of the champions of various countries are interestingly analyzed.

By HELEN WILLIS MOODY

The best concentrators in women's tennis that I have ever seen were Mlle. Lenglen and Mrs. Mallory. Mrs. May Sutton Bundy, too, must have been very good at it, but I did not see her in the days of her best tennis.

Among the men players, Rene Lacoste stands out as being the possessor of almost unbelievable powers of concentration. He seemed to be focused in the game with a power in his game which flowed smoothly and dependably.

This was so, too, of Mlle. Lenglen. There were no ups and downs in the games of these two, but they were very much alike in their concentration. It is curious that they should both be French. We are accustomed to believe that the French nature is volatile. But I have found that upon the tennis court, at least, the French are very practical-minded. They seem to be hindered neither by imagination nor sentiment—hence, are able to concentrate without difficulty.

It is rather interesting to develop the idea of concentration in terms of nationality. You might suppose that the English players, because of their background, would excel in concentration. Yet this does not seem to be so—at least among the present-day players.

And we Americans, who like to believe ourselves unemotional, are, on the tennis court, perhaps more likely to experience extremes of feeling than are players of other nationalities. It is natural for us to feel either highly elated and optimistic, or else cast down and dejected. One does not need to go to the tennis court to find proof of this.

Not that I am in any way a student of tennis, but I am in a state of this there seems to be a curious determination in American players, which tends to aid them toward concentration.

The only other players that I can think of who have the same spirit, but in an Oriental way, are the Japanese. They seem to have a kind of fatalistic feeling that unless a game is at its best, it is at its worst. But perhaps, because of my own point of view, I am crediting both American and Japanese players with an attitude which does not belong to them.

I know that for myself there are only two things—playing and concentrating as well as I am able, or else playing and having no direction at all to my game. Whatever is in between would be so poor as to be worse than nothing. This may be unfortunate, perhaps, because it makes an unimportant match as important as the finals at Wimbledon.

LOST MATCH ON INEXPERIENCE

Once at Wimbledon, I lost my concentration because of inexperience. I was distracted by wave upon wave of applause for my English opponent's play, until the very objective of the match was lost in a waterfall of sound, and I finished the game like a stupid child, who had never been on a tennis court before.

Not that I had never won, because the English player was better than I, but I would have made a better showing if I had been able to tell myself to pay attention to "every shot." This experience pointed out to me more than any other the value of concentration.

Always after that when I played, I tried to keep the lesson in my mind: Half the battle of being able to concentrate is won if you can command yourself to concentrate and then obey.

Naturally one does not always obey one's own good advice—but if one can, part of the time, that is something gained.

Another article on instructive tennis by Helen Willis Moody tomorrow.

Shikat's

Wife Dies From Injuries

Columbus, O., May 14 (AP)—Mrs. Erika Shikat, 36, wife of 29½ Shikat, former champion of the world's heavy-weight wrestling championship, died early today of injuries suffered when her automobile turned over and caught fire May 2.

Because of her condition Shikat yesterday cancelled a match scheduled for May 21 with Everett Marshall in Jersey City.

Mrs. Shikat was hurled about the head and face when her automobile struck a curb in three miles east of Columbus, Ohio, killed 10 men, turned over, and burst into flames.

4-PLACE Tie Chance IN W. G. A.

Matches Points

Southern 3 40 50

Two Country Club 3 38 38

Midland 3 4 13 38

Midwestern 4 4 36 38

Northern 3 4 36 38

Central 3 4 36 38

ST. LOUIS TODAY

Southern vs. Midwestern at Dedham

Midland vs. T. C. C. at Braintree

Northern vs. Central at Charles River

It's indeed very fortunate that the Women's Golf Association of Massachusetts is an amateur body for if the members of the six district teams were professionals, the skeptics would be suspicious of the blanket finish of the championship race.

It just so happens that victors today by Midland and Middlesex will create a four-cornered tie for first place going into the tenth and final round next Monday.

Since the Middlesex team is the only one to have won matches since the championship began, it is not possible for any one of the four teams to win the championship at the start of the next round. Midland kicked away four straight matches but in its last five, it has lost four. The Central team has lost four of its last five matches, but in its last five, it has won four. The Southern team has won four of its last five matches, but in its last five, it has lost four. The Northern team has won four of its last five matches, but in its last five, it has lost four.

Southern Slumps

On the other hand, the Southern team has won four of its last five matches, but in its last five, it has lost four. The Northern team has won four of its last five matches, but in its last five, it has lost four. The Central team has won four of its last five matches, but in its last five, it has lost four. The Midland team has won four of its last five matches, but in its last five, it has lost four.

At the Dedham Club, the Southern team will be matched with the Central team. The Central team will be matched with the Midland team. The Midland team will be matched with the Northern team. The Northern team will be matched with the Southern team.

MIMI LITTLE

simply the creation of one of the most typical forms of native American opera

With an exception of these few items, the Fair had provided nothing to mislead, excite and diverting type of benefit for the Indians and the American Summer.

It was not, in my opinion, the time to watch the "angels" act in their golden robes, wings to show "heavenly food" to the hungry "more natives" who crowded the Garden luncheon room. Mrs. H. A. P. Brown and her manager, Allan, along with Miss Little, Priscilla Thorndike, Mrs. Frank Godfrey, Mrs. Horatio Alden and Mrs. Henry L. Bourne Jr. were the "angels" in "golden robes" with wings.

They were not, in my opinion, the "angels" who certainly would have caused a lot of skeptical comments if the husbands of some of the waiters had been around . . .

Saltwater Girls in Picturesque Garb
SIBERIAN SALTWATER GIRLS dressed up in original
Troyan costumes from 1921 to 1923, in various times
for their jobs as waitresses in the Beer Garden. . . . Caroline
Saltwater Mack, a recent bride, wore an embroidered peasant
blouse with lots of bright blue in many her apron and she
dressed about on the same time in a lovely little straw slipper
with no heels. . . . Her sister-in-law, Mrs. Robert Saltwater
Jr., was as pretty as a picture in a cotton peasant dress
of brown and rust tones with a Tynian hat feather and all. . . .
Their associates in the beer and soda business included Mrs.
Edward Fjorson, Mrs. George P. Singsen, Mrs. Sydney Graves

[illegible]

Polly Wardwell in Smart Navy Rig

WE SAW SO MANY societies warring through the alley, enjoining this or that that it fun. . . Eliza Rowditch Wheelwright in a very smart navy outfit, all finely pinned, took in a very good crowd. . . friend. . . Polly Wardwell, who is in a smart navy outfit. . . After each has a helping hand to a little comrade. . . Mrs. Frank Sawyer of Chastest relaxed for a few minutes in the beer garden. . . Barbara Reynolds, president of the Y. . . at least until the annual meeting (this noon) and her sister-in-law, Mrs. Harrison Reynolds, were buying ice cream cones and balloons for Mrs. Reynolds' party.

Still other friends were far more Mrs. Rob Stanger.

Mrs. H. Howard Shubert was a notable of happen. Mrs. Barrett Wendell who furnished her services as bidden, to patronize the affair on such a festive occasion . . . Mrs. A. L. West Mowus, Mrs. Philip Stockton and Mrs. J. Lewis Bremer, each in a smart black outfit passed among together . . . Mrs. Francis Hill (Evelyn Rice) dressed as Miss Charlotte Devereux with the fashion about as if it were the "Hilfstrange Wife." . . . Mrs. E. C. Smith, a blonde Tupper and Pearsall Sagendorf made very animated "wooden soldiers," she guarded the entrances of the Toy Cupboard . . . their paper outfits just like the wooden soldiers' red white and blue parade uniforms . . .

Mrs. John Ramsay looked pretty and summery in a white dress with a turquoise belt, belt and slippers, and Olive Perre enhanced her blondeness with a pretty strict costume of old rose with brown accessories.

Aid to Girls Studied

A black and white photograph of a woman standing outdoors. She is wearing a wide-brimmed straw hat with a flower in the band, a light-colored short-sleeved shirt, and dark overalls. She is smiling at the camera. To her right is a wooden wheelbarrow filled with a large quantity of white, daisy-like flowers. The background is a dark, vertical-plank fence. The ground is light-colored and appears to be a path or driveway.

CATHERINE RICHARDSON wore overalls for her duties in the flower section of the Back Alley fair yesterday. She is the daughter of Mr. and Mrs. Otis Weld Richardson of Brookline.

Haney on Frazier-Lemke Bill

Inflation, Not Relief, REAL OBJECT OF BILL Debated in House

By LEWIS HANEY
(Professor of Economics, New York University)
New York, May 14.—The Frazier-Lemke bill, which provides for carrying a huge mass of farmers' debts by issuing greenbacks, has been defeated in the House.

Yet can know a bill by the company it keeps. Coughlin was backing this bill. Goldsborough, Blanton and Fatman were for it. Enough said.

These men have two thoroughly inconsistent and conflicting notions. One is that a lack of money is what ails the country and what we need is more money. The other is that it does not make any difference what we use for money—that greenbacks are as good as gold.

How anyone can say that money is all-important, and at the same time say that anything will do for money, is beyond me. One would suppose that the more important a thing is, the more important is the quality of that thing. If medicine is what I need, I want good medicine.

As one congressman has pointed out, the object was obviously inflation rather than direct farm relief, since the amount of relief was limited to three billion dollars. If farm mortgages were the object, why stop at that figure? There are at least seven billion dollars in farm mortgages today.

I think I know the reason for the three billion dollar figure. It is probably based on the amount of the "gold profit" written up by the Roosevelt administration when it seized the people's gold, and said what was five billion dollars is now to be called about eight billion dollars.

Thus this is one of Mr. Roosevelt's chickens coming home to roost. The idea is that this is easy money—virtually stolen money—so why not give it to the farmers?

That inflation was the real object is seen in the fact that the bill made the issue of greenbacks practically certain. To be sure it provided that bonds be issued, but it also provided terms that would make it impossible to sell the bonds. Thus the greenback alternative which it provided would have to be used.

The bonds provided for in the bill were long-term bonds bearing 1 1/2 per cent. But the existing long-term government bonds yielding between 2 1/2 and 3 per cent. Who, then, would have bought the proposed new bonds? If a smaller quantity of government bonds can be sold only on a 2 1/2 per cent basis, it is obvious that a larger quantity will require an even higher rate.

So the only recourse would be to greenbacks.

In fact, a 1 1/2 per cent rate for farm money is utterly impossible except as an inflationary cry. The government estimates that at least three per cent is required in addition to a minimum two per cent interest rate. Operating expenses in handling the huge volume of business involved in making and supervising many thousands of loans requires a charge of at least one per cent. Losses are bound to arise and require another one per cent as a minimum. (At present 27 per cent of the loans made by farm banks are delinquent.)

JUNIOR BIRDMEN OF AMERICA

DEVOTED TO THE INTEREST OF THE YOUTH OF THE AMERICAS IN AVIATION

Five members of the Mongoose squadron in Mattapan have officially entered the Novice Plane Flying contest to be held at Franklin Field, Blue Hill and Talbot avenues, Dorchester, between 9 a. m. and 1 p. m. on Saturday, May 23.

They are: James P. Cotter, Hubert Bent, James McArthur, Duane Ruffolo, Robert Barron and Gordon Cain. All live in Mattapan.

Each of these boys has a good chance to win one of the six \$2500 prize bonds given out at the Boy Scouts' store, Kennedy's store, Gordon Cain has been especially persistent in nibbling at the prize bonds.

James P. Cotter, who is the determined model builder who finally won the Gordon hand-knitted place in the last March had his own fifth place but would be ineligible for the coming Novice contest as it is limited to boys and girls who have never won from fifth to first place in an official meet.

In addition to the prize, \$15 in merchandise orders, paid at the Best Model Supply Co.'s shop, Bedford street, will be distributed to the winners. They will be: Hubert Bent, \$10; James McArthur, \$10; Duane Ruffolo, \$10; Robert Barron, \$10; and Gordon Cain, \$10.

Each of these boys has a good chance to win one of the six \$2500 prize bonds given out at the Boy Scouts' store, Kennedy's store, Gordon Cain has been especially persistent in nibbling at the prize bonds.

I wish to join the Junior Birdmen of America. I enclose a dime (well wrapped) for my gold wings and other membership materials.

REPORTS RAIL UNIFICATION URGED

Menace Glass MAKERS THREAT

By International News Service
New York, May 14.—Japan stands revealed today as an alarming potential menace to American manufacturers of glass products, including glass containers, vials and thermos bottles, Drug World says in its current issue.

The magazine points out that in 1935, 143,675 tons as much blown glass tableware and kitchen articles were imported from Japan as in 1929.

Japanese workers in thermos bottle plants in Japan, the magazine tells, are now manufacturing and exporting a full catalogue of glass products which are almost identical to a catalogue published by an American firm.

CONSUMPTION COPPER

Employe Representation Industrial Relations

By Associated Press
New York, May 14 (AP)—World consumption of copper increased to 142,300 tons in April from 136,988 tons in March, and world stocks of refined metal declined to 471,000 tons from 483,296 tons at the end of March, statistics released to the trade today disclosed.

The reduction in domestic supplies left the figure at 233,000 tons compared with 245,000 tons at the end of the preceding month. Foreign stocks were 237,200 tons compared with 248,296 tons at the end of the preceding month.

World output of refined copper was placed at 130,000 tons, against 128,924 tons domestic producers contributed 109,000 tons, compared with 67,094 tons in March.

The value of exports up to March 31 was \$75,275,000, an increase of nearly \$5,000,000 over the 1935 period. Merchandise exports to Europe totaled \$28,725,000 in April, \$22,322,000 in March, and \$20,616,000 in February.

PROFIT Tax Retards ADVANCE

SNYDER GIVES VIEWPOINT

By Meryle Stanley Ruker
Copyright, 1936, by Universal Copyright Service
New York, May 14.—The haste of treatment and incompetent draftingmanship in the new distributed corporate profits tax legislation indicates that we still fall short of a high standard in the science of relating government to business.

The invalid thesis behind the punitive tax legislation is that widespread new investment is no longer feasible to recoup surplus funds from business men who won't spend them to bondholders who will.

However, such legislative action is hardly feasible. It is not finding, it is not working, and in time mistakes will be corrected.

In fact, new investment was depressed by a definite and serious shortage of corporate saving in a serious and acute manner. It would have found the beginnings of an American literature on the subject.

Mr. Snyder presented his viewpoint, saying: "It is obvious that we cannot have any general gain of wealth, content and enjoyment save by a definite and serious shortage of corporate saving in a serious and acute manner. It would have found the beginnings of an American literature on the subject."

Exports Jump Over Trade Volume

Washington, May 15 (INS)—American exports of merchandise during the first three months of 1936 jumped sharply over trade volume for the same period of 1935.

The value of exports up to March 31 was \$75,275,000, an increase of nearly \$5,000,000 over the 1935 period. Merchandise exports to Europe totaled \$28,725,000 in April, \$22,322,000 in March, and \$20,616,000 in February.

The value of exports up to March 31 was \$75,275,000, an increase of nearly \$5,000,000 over the 1935 period. Merchandise exports to Europe totaled \$28,725,000 in April, \$22,322,000 in March, and \$20,616,000 in February.

INDUSTRY

Presents

MIXED

Outlook

By Hugh E. Bradshaw
The big three of New England industry—cotton, wool and leather—present a somewhat mixed picture at the moment, according to trade reviews.

From Dun & Bradstreet we learn that shoe and leather lines tend to become more active. The other two, presumably, are experiencing a foretaste of summer dullness.

While the local wool market has been quite active little has been happening in the rest of the country. The reason that it is not so firm as it was previously is spreading. Mills are getting comparative few orders and they have sufficient business to carry on for a few weeks. Dealers generally report an increased call for women's goods, but men's lines are inactive at the moment.

Cotton goods, particularly finished lines, are selling rather slowly. Raw cotton prices have rather weak, and the outlook does not seem to favor more. Wool and leather lines, as depicted by Dun & Bradstreet, are in a flatter condition in all parts of the country. The leather industry, however, received by manufacturers has enabled them to make considerable quantities of goods. Grades of leather are selling in moderate quantities, but there are not according to any demand for lower prices.

Notebooks: The bulls on March field are hesitating again. . . . And any number of observers think they really have something to say about the Western Union is well situated for a good business. . . . Snap Irving Trust for Chemical Bank is the word are coming. . . . Both of New York City. . . . And once again we suggest readers watch the insurance stocks. . . . Especially fire companies. . . . New conditions are gathering with the general public. . . . Up to now it has been something only the few fellows considered. . . . White Motors received a very nice government order.

With the early returns on today's market action in so far as it looks through the market state that has been broken. The early returns coming after a stretch of desultory sessions. . . . The market is looking for it to continue through the next session or two at least. . . . To an end of the market the market approached the climax of its advance as the day ended when the Supreme Court justices. . . . Next Monday the justices will be in session. . . . The market and the financial district has high hopes for a decision on the Cuffey Coal Act.

Olds and Ends: If the decision is rendered on Monday it should have a marked effect on prices. . . . Supposing it is favorable to those protesting its validity, reducing enthusiasm for the new car. . . . In which event the market is likely to be in a following reaction. . . . Which leads us to the point of view that the market will sell the good news at the initial price. . . . And stand by the market, excellent subdued and more stable. If more favorable, the market will be presented.
